

## QUALITY POLICY

**SINADRIVES S.L.** designs and manufactures innovative products for fast, precise, and reliable positioning. Thanks to linear motor modules and Direct Drive technology, it can offer flexible solutions for the automation industry.

By applying technical knowledge, experience, and methodology, **SINADRIVES S.L.** aims for each project to achieve optimal, cost-effective results focused on full customer satisfaction.

Scope:

***"Design and manufacture of linear motor modules."***

Therefore, the General Management of **SINADRIVES S.L.** establishes the following commitments:

- To comply with the applicable legal, regulatory, and customer requirements in all areas of the company.
- To maintain and continuously improve an effective Quality Management System in accordance with ISO 9001:2015 requirements, ensuring the quality of our products and processes.
- To promote continuous improvement of the system through the review of quality objectives, internal audits, corrective actions, and Management Reviews.
- To encourage active staff participation through training, communication, and motivation, ensuring their competence and commitment to quality.
- To maintain a flexible organizational structure and smooth communication across all levels, capable of adapting to changes in the environment, the market, and customer needs.
- To communicate and periodically review this Quality Policy, ensuring its adequacy to the company's reality and its role as a framework for quality objectives.

Management of **SINADRIVES S.L.**, October 21st, 2025.
